Re: Public Library Standards Comments
Date: October 5, 1999

On September 10, MSL hosted the hearing on the draft administrative rules regarding public library standards. Enclosed is a transcript of the hearing for your information.

The next steps in this process are for MSL to answer all of the questions regarding the content of the administrative rules. The agency's attorney should review these questions and answers before we respond to the persons who made the comments and change the draft administrative rules. I plan to send these to the attorney on October 1 and ask for a quick response. I will share his responses and any changes with you in Billings.
