T-MOBILE FRANKLIN T9 USER GUIDE

1. You can find the Wi-Fi Name and password at any time you need. Press the Power/Menu button (indicated in red below) when the display is on (indicated in blue below). The menu will switch every three seconds and show you the Wi-Fi **network name** and **password**.

2. **To connect your Wi-Fi device to your mobile hot spot:**

   On your computer or other Wi-Fi-enabled device, search for available Wi-Fi networks and select the hot spot network name.

   - From a Windows PC:

- o Left-click **Wireless Network Connection** on the taskbar to view available networks.
- o Choose the hot spot network from the list of available networks.

- From a Mac computer:
    - o Select **System Preferences > Network > Airport.**
    - o Click **Advanced** to choose the hot spot network from the list of available networks.
    - o Choose the hot spot network from the list of available networks.

- From an iOS device:
    - o Go to **Settings > Wi-Fi.**
    - o Choose the hot spot network from the available networks.

- From an Android device:
    - o Go to **Settings > WiFi settings.**
    - o Choose the hot spot network from the available networks.

Once you have selected the network name, enter the password, then click **OK.**

FROM THERE, OPEN A WEB BROWSER AND ENJOY!
