# Preface

# Preface

The purpose of this preface is to define certain obscure data elements which are reported in the tables, to delineate changes in data element definitions and reporting procedures of the last few years, and to point out occurrences which would affect individual library statistics for the reporting year.

## Interpretive Information

In using and interpreting the information in this report, it is important to note the following limitations. First, Montana's cities and counties may have different fiscal years. Thus the data published in this report reflects the fiscal years of July 1, 1999 to June 30, 2000. Second, in most cases all items of data are reported exactly as supplied by the responding library. However, obvious errors and discrepancies were discussed with the librarians and were corrected.

Montana has 79 legally established public libraries in the State. Montana also has six public libraries that are school public libraries. These libraries are housed in the school facility and are shared with the community. The statistical information for the school public libraries includes a combination of the school and public library budgets, services and other data information. The school public libraries in Montana are: Broadwater School & Community Library, Townsend; Joliet Community Library, Joliet; Manhattan Community Library, Manhattan; Roundup Community Library, Roundup; St. Ignatius School -Community Library, St. Ignatius; and Petroleum County Public Library, Winnett.

This publication contains data elements collected by the Montana State Library on basic statistical questions specifically designed for Montana Libraries. The Federal-State Cooperative System [FSCS] Program has developed the other questions and this program is part of the U.S. Department of Education. The FSCS Program develops and compiles standardized national public library statistics for all the 50 states and the territorial states that participated in the program.

Each year special circumstances arise in one library or another that may affect library statistics. Some special circumstances could possibly be, but not limited to: library closed to move into a new facility; library automation projects; school and public library's combining facilities; and the process of hiring a new director and/or new staff members could affect the library's statistics.

The data elements used in this report will be of use to those public librarians, library trustees, and federation coordinators working on budgets, researching specific library-related topics, and planning for improved library services.

Those wishing additional information or if you have any questions, please contact Diane Gunderson, Data Coordinator for the Montana State Library, at 406-444-5349 or 800-338-5087, Fax: 406-444-5612, E-mail: [dgunderson@state.mt.us](mailto:dgunderson@state.mt.us), Address: PO Box 201800, Helena MT 59620-1800.

# Introduction

# Introduction

## Statewide Library Performance Indicators

This report of public library services is a tool for Montana's public librarians and library trustees to use as they work to improve the quality and effectiveness of public library service.

This report contributes to creating a statewide context by reporting data useful for local library planning. This information is presented in two sections: core performance measures and general and service area population tables.

### Core Performance Measures

Because of their potential applications to library services planning and because of their usefulness as general indicators of library service on a statewide basis, six measures have been designated as core performance measures:

Visits Per Capita	Circulation Per Capita
Turnover Rate	Holding Per Capita
Expenditures Per Capita	Income Per Capita

The following pages provide summary data for these performance measures on a statewide basis. The population of the library service area is also provided. For each measure, the text gives a general description and identifies some of the factors affecting the measure.

### General and Service Area Population Tables

In this publication the general tables are categorized by the county in which the public library resides and report basic library information on a library by library basis.

#### General Tables:

Population	Programs
General Information	Interlibrary Loans
Staff Information	Automation
Salary Ranges	Computers Available to Public
Income	Internet Access
Expenditures	Circulation Systems
Collection	Electronic Services
Service Hours	Americans with Disabilities Act - ADA
Circulation	

On the Service Area Population tables the libraries have been assigned to one of the seven groups based on the service area population (not the city population). Service area population is the number of people in the geographical area for which a public library has been established to offer services and from which the library derives income, plus any areas served under contract. The service area population

of each group, (Over 25,000; 10,000-24,999; 5,000-9,999; 3,500-4,999; 2,000-3,499; 1,200-1,999; and 1,199 & Under), is an attempt to organize libraries into the most homogeneous groups possible for purposes of comparison. The population of 1998 was used to calculate service area population.

### **Service Area Population Tables:**

Income	Service Hours
Expenditures	Circulation
Collection	

## **Interpreting Measures**

Although community and individual library circumstances vary the core measures and general tables can assist Montana's public librarians and trustees as they evaluate library activities and plan improvements in library services. As librarians and trustees use these measures, a number of points should be kept in mind.

- *Analyze the library's statistics in terms of the library mission, goals, and objectives.* Libraries, even in communities of similar size, have varying funding patterns and community expectations for service. A reference and resource library will show a different pattern of statistics than a popular materials library will.
- *Realize that online databases and Internet have changed library use patterns.* Although statewide and national data have not yet been collected on this service, individual libraries should be tracking it in their own locations.
- *Remember that performance measure scores are not absolutes.* Performance measures are not necessarily precise. Most measures are calculated in percentages and express ratios. Do not be too concerned about "decimal points."
- *Use performance measures in context.* There are not "right" or "wrong" scores for performance measures. One performance measure alone cannot tell a complete story. Performance measure scores should be interpreted in context with each other and with the libraries overall service program and budget.
- *Exercise patience in working towards improving performance measure scores.* Changing a library's score on a performance measure is usually not done overnight. Such a change usually requires work over an extended period of time. Improving a library's score on selected performance measures has to be done in a cooperative effort among the library director, library trustees, governing body of the library and the community in which the library serves.

**Core  
Performance  
Measures**

---

## Visits Per Capita - SFY 2000

---

Visits Per Capital relates the number of people coming into the library to the population of the community it services. It can be thought of as representing the average number of times during a year that a member of the community uses the library. Visits Per Capita is calculated by dividing the library total attendance by the service area population.

### *Factors that Influence the Measure*

- Fluctuation in the size of the service area population
- Library hours of service
- Physical arrangement and convenience of the library facilities
- Community awareness of library service
- Special programs--prizes, reading programs, etc.
- Library circulation or acquisitions policies, loan period, fines
- Age, condition and size of the library's collection

### *Interpretation and Use*

Visits Per Capita is one measure of the community's use of the library, whether for materials, programs, or meetings. A high score on the measure indicates heavy use of the facility. A low score may indicate several things, for example:

1. The hours the library is open does not fit the needs of the community;
2. The library's collection and/or programming does not meet the community's interests or needs;
3. Residents may be unaware of what the library has to offer;
4. The facility may be uninviting.

Population Category	Number of Libraries	Service Population	Visits Per Capita		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	8.55	13.18	1.48
<b>1,200-1,999</b>	14	22,405	3.70	11.98	1.12
<b>2,000-3,499</b>	13	34,319	4.31	10.91	0.00
<b>3,500-4,999</b>	13	56,423	5.29	23.00	1.07
<b>5,000-9,999</b>	12	92,899	3.96	10.75	0.69
<b>10,000-24,999</b>	13	177,679	3.30	5.78	0.86
<b>Over 25,000</b>	7	491,815	3.89	7.01	2.31
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>2.17</b>	<b>23.00</b>	<b>0.00</b>

---

## Circulation Per Capita - SFY 2000

---

Circulation Per Capita relates the number of items a library circulates to the population of the community it serves. It can be thought of as representing the average number of items checked out in a year by a member of the community. Circulation Per Capita is calculated by dividing the library's total annual circulation by the service area population.

### *Factors that Influence the Measure*

- Fluctuation in the size of the service area population
- Increase or decrease in the number of items circulated annually
- Library circulation or acquisitions policies, loan period, fines
- Special programs--prizes, reading programs, etc.
- Community awareness of library service
- Library hours of service
- Number of library users
- Age, condition and size of the library's collection
- Physical arrangement and convenience of the library facilities

### *Interpretation and Use*

Circulation Per Capita is another measure of the community's use of the library. A high score on this measure indicates heavy use of the library' circulating materials. A low score may indicate several things, for example:

1. The library' collection may not meet community needs or interests;
2. Community residents may be unaware of the library's resources;
3. The library may have an extensive collection of non-circulating materials.

Population Category	Number of Libraries	Service Population	Circulation Per Capita		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	8.75	16.10	2.29
<b>1,200-1,999</b>	14	22,405	5.24	12.13	2.07
<b>2,000-3,499</b>	13	34,319	5.96	10.82	2.16
<b>3,500-4,999</b>	13	56,423	5.16	8.28	1.22
<b>5,000-9,999</b>	12	92,899	4.35	10.76	1.01
<b>10,000-24,999</b>	13	177,679	4.38	6.95	0.94
<b>Over 25,000</b>	7	491,815	6.06	9.59	2.89
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>5.47</b>	<b>16.10</b>	<b>0.94</b>

---

## Turnover Rate - SFY 2000

---

Turnover Rate measures the activity of a library's collection, indicating the number of times each unit of library material would have circulated during the year if circulation had been spread evenly throughout the collection. It is calculated by dividing the library's total annual circulation by total library holdings.

### *Factors that Influence the Measure*

- Increase or decrease in the annual circulation
- Circulation policies--loan period, fines
- Library acquisitions and collection development policies
- Special programs--prizes, reading program, etc.
- Community awareness of library service
- Library hours of service
- Number of library users
- Age, condition and size of the library's collection
- Physical arrangement and convenience of the library facilities

### *Interpretation and Use*

This measure related strongly to the goals each library has set for meeting the service needs of its community. A library which emphasizes the circulation of popular reading materials will have a higher Turnover Rate than a library which emphasizes subject expansion in its collection and has an extensive reference collection.

Population Category	Number of Libraries	Service Population	Turnover Rate		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	8.75	16.10	2.29
<b>1,200-1,999</b>	14	22,405	5.24	12.13	2.07
<b>2,000-3,499</b>	13	34,319	5.96	10.82	2.16
<b>3,500-4,999</b>	13	56,423	5.16	8.28	1.22
<b>5,000-9,999</b>	12	92,899	4.35	10.76	1.01
<b>10,000-24,999</b>	13	177,679	4.38	6.95	0.94
<b>Over 25,000</b>	7	491,815	6.06	9.59	2.89
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>5.47</b>	<b>16.10</b>	<b>0.94</b>

---

## Holdings Per Capita - SFY 2000

---

Holdings Per Capita relates the number of items a library owns to the population of the community it serves. It assesses collection size, not collection quality. To calculate Holdings Per Capita, divide the library's total holdings by the service area population.

### *Factors that Influence the Measure*

- Size of the collection
- Fluctuation in the size of the service area population
- Size of the library materials budget
- Library collection and weeding policies
- How the library defines its holding

### *Interpretation and Use*

Holding Per Capita is one measure of the match between the size of your library's collection and the community it serves. This measure must be interpreted in connection with other measures, since collection size alone is not necessarily an indicator of quality. For example, Turnover Rate and Circulation per Capita can be helpful in interpreting this measure.

Population Category	Number of Libraries	Service Population	Holdings Per Capita		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	13.47	41.91	4.20
<b>1,200-1,999</b>	14	22,405	7.46	13.17	3.42
<b>2,000-3,499</b>	13	34,319	6.47	11.00	3.59
<b>3,500-4,999</b>	13	56,423	5.35	9.74	1.92
<b>5,000-9,999</b>	12	92,899	3.79	7.45	1.87
<b>10,000-24,999</b>	13	177,679	3.06	5.41	1.16
<b>Over 25,000</b>	7	491,815	2.28	2.81	1.87
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>3.15</b>	<b>41.91</b>	<b>1.16</b>

---

## Income Per Capita - SFY 2000

---

Income Per Capita relates library income to the population of the service area served. It is obtained by dividing the library's total income by the service area population. Figures shown here are based on each library's **total income**, which includes city, district, county, state, federal, and other income.

### *Factors that Influence the Measure*

- Overall local economic conditions
- Changing tax base
- Demands on local government for all public services in general and library service specifically
- Community perception of the importance and value of library service
- Political climate
- Changes in the availability of state and federal grants

### *Interpretation and Use*

Knowing the extent to which a city, district or county government is providing the financial support possible for its library is valuable information for public librarians and their boards. In submitting and defending their budgets, librarians and trustees must know that the amounts requested are realistic given the funding base of their community.

Population Category	Number of Libraries	Service Population	Income Per Capita		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	\$39.54	\$92.61	\$4.59
<b>1,200-1,999</b>	14	22,405	\$16.63	\$24.08	\$7.53
<b>2,000-3,499</b>	13	34,319	\$21.73	\$39.94	\$8.43
<b>3,500-4,999</b>	13	56,423	\$16.15	\$24.59	\$8.74
<b>5,000-9,999</b>	12	92,899	\$13.76	\$28.73	\$1.94
<b>10,000-24,999</b>	13	177,679	\$17.01	\$24.80	\$10.46
<b>Over 25,000</b>	7	491,815	\$23.47	\$40.21	\$11.41
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>\$20.52</b>	<b>\$92.61</b>	<b>\$1.94</b>

---

## Expenditures Per Capita - SFY 2000

---

Expenditures Per Capita relates library expenditures to the population of the service area served. It is obtained by dividing the library's total expenditures by the service area population. Figures shown here are based on each library's **operating** expenditures, such as, personnel, collections and operations.

### *Factors that Influence the Measure*

- Overall local economic conditions
- Changes in the tax base of local government
- Demands on local government for public services in general and library service specifically
- Community perception of the importance and value of library services
- Political climate
- The extent to which certain services [custodial, utility, administrative functions, etc.] are charged to the library's budget.
- Changes in the availability of state and federal grants

### *Interpretation and Use*

In general, Expenditures Per Capita reflects the community's financial support in relation to its size, although operating expenditures from other sources of income are included. Communities with a lower tax base usually must make a proportionally greater effort to support adequate library services. Although Expenditures Per Capita must be interpreted in conjunction with other measure to document the library's performance, it can provide important information for use by elected officials and the general public as they review the library's budget.

Population Category	Number of Libraries	Service Population	Expenditures Per Capita		
			Average	High	Low
<b>1,199 and Under</b>	7	4,913	\$32.91	\$76.96	\$5.17
<b>1,200-1,999</b>	14	22,405	\$13.25	\$22.65	\$5.81
<b>2,000-3,499</b>	13	34,319	\$19.83	\$35.63	\$8.59
<b>3,500-4,999</b>	13	56,423	\$13.44	\$21.79	\$6.84
<b>5,000-9,999</b>	12	92,899	\$12.48	\$28.49	\$1.39
<b>10,000-24,999</b>	13	177,679	\$13.69	\$20.76	\$8.45
<b>Over 25,000</b>	7	491,815	\$17.67	\$37.16	\$11.39
<b>Statewide:</b>	<b>79</b>	<b>880,453</b>	<b>\$16.11</b>	<b>\$76.96</b>	<b>\$1.39</b>
