

**Montana Makers**

**Pilot Evaluation**

*Kit materials*

1. What were the most useful, fun, exciting, [other positive adjectives] tools or materials in your maker kit? How did you use them?
2. What were the least used tools or materials? Is there a particular reason they were not used?
3. What changes would you suggest for improving the content of the maker kits?

\*\*

*Preparation*

1. What part of the training or available resources were useful in preparing for hosting your kit?
2. What additional training, orientation, or resources would have been helpful?

\*\*
